

Smau 2009

Query will join IBM Company at Pavilion 4, Stand A36, during the Smau 2009 Exhibition.

Query will attend the Exhibition with a global and Integrated solution able to adapt itself to all business processes and to all strategies connected with production, marketing and commerce.

During the Workshop Business, we will introduce our "Solution Cube": the global and integrated solution.

Solution Cube is based on:

- IBM BladeCenter
- IBM Power System
- IBM Total Storage
- Sme.UP, ERP in a mash-up context
- Negoziando, the Retail Management Software
- Virtual system from datacenter to client

During the event we will present different successful cases, which made it possible for us to obtain interesting results. The Workshop Business will take place on 23rd October at 2.30 p.m.
